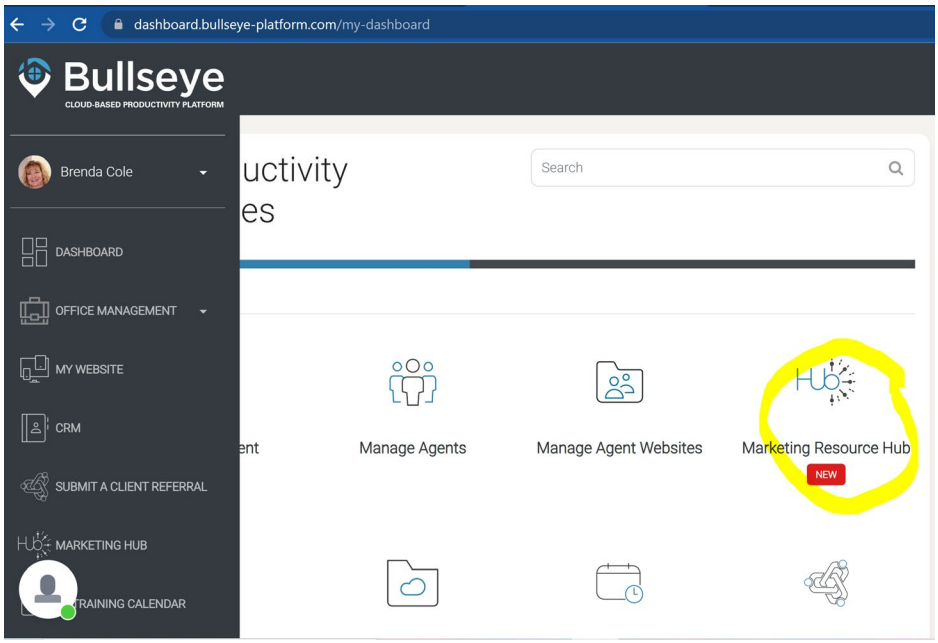
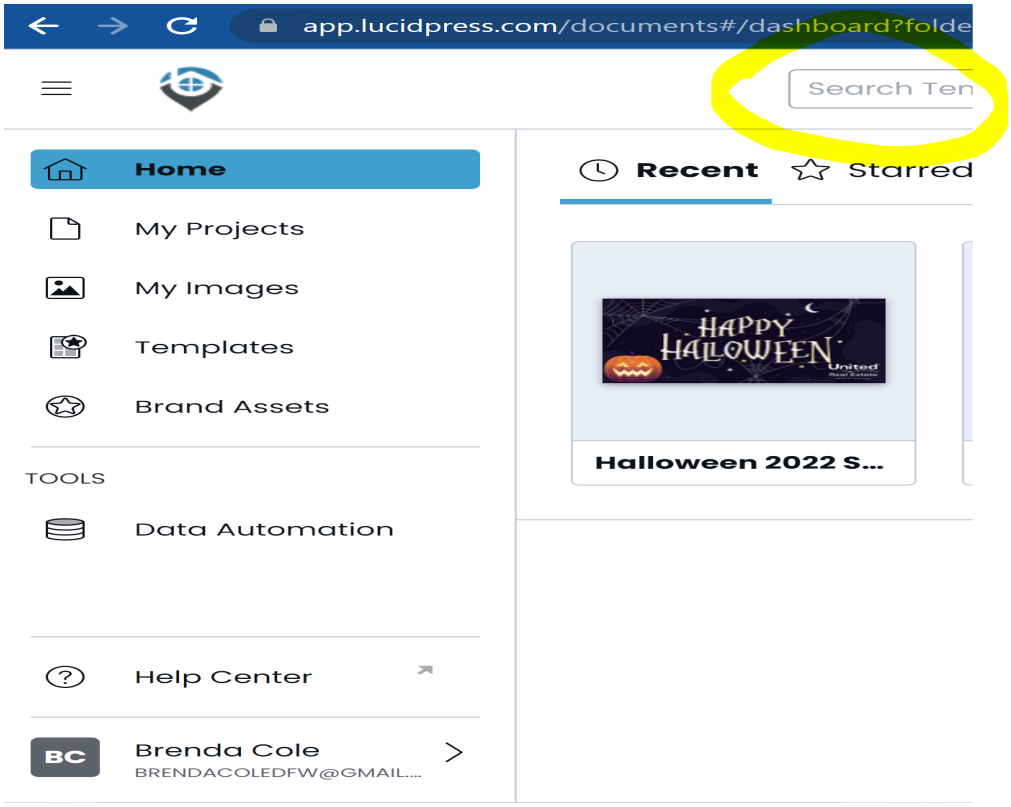
Locating Social Media Posts on BullsEyePlus.com

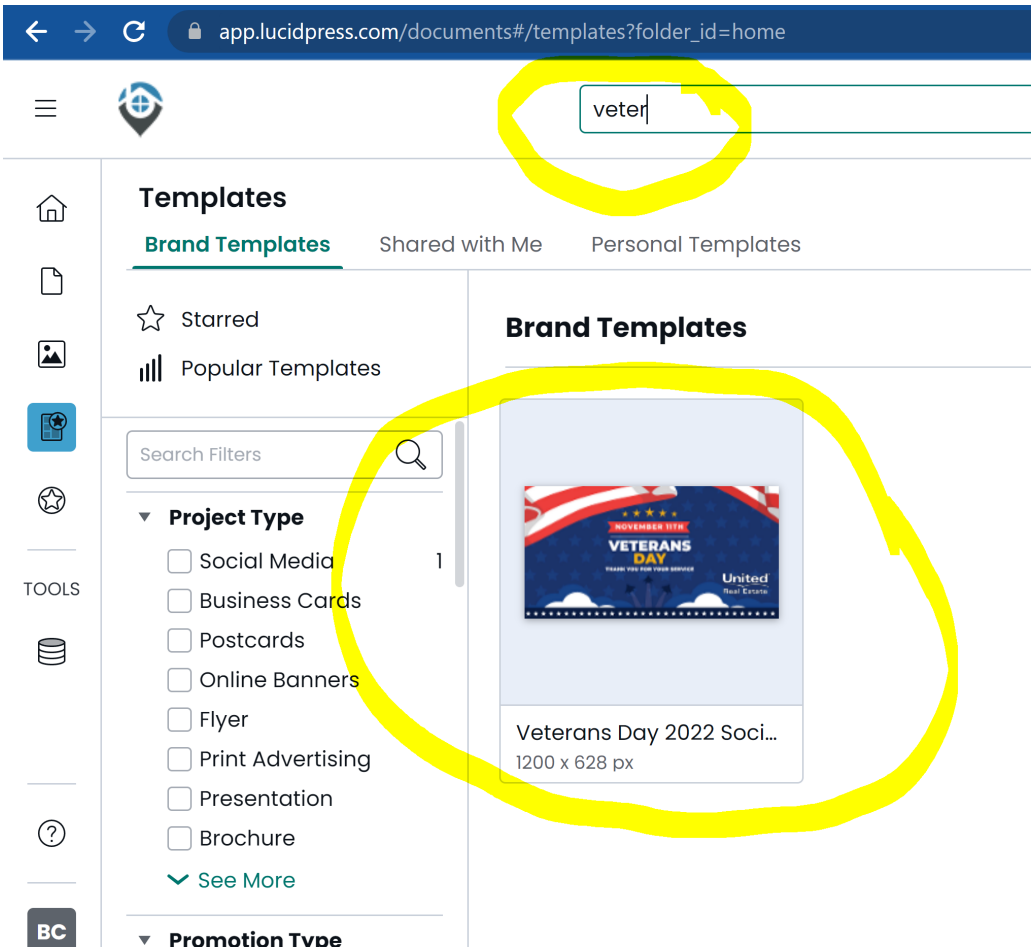
- Login to BullsEyePlus.com
- Click on the “Marketing Resource Hub” icon



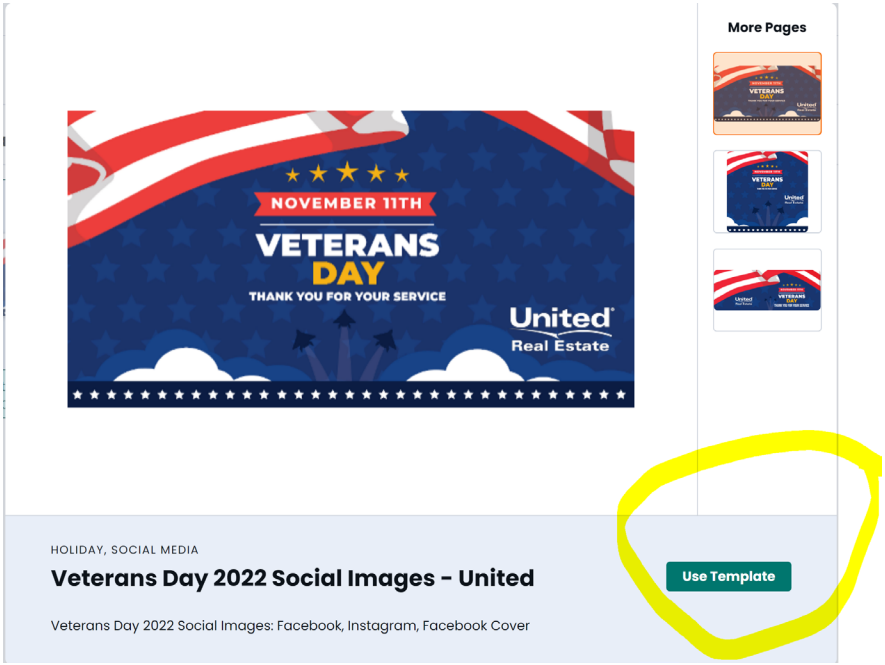
- Type in your search in the search template bar at the top



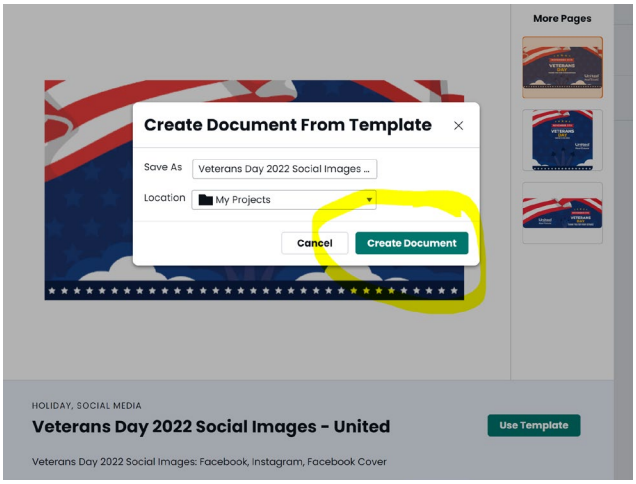
- As you begin typing the results will appear, note I only typed in veter and the Veterans Day templates appeared.
- Click on the picture under the word Brand Templates



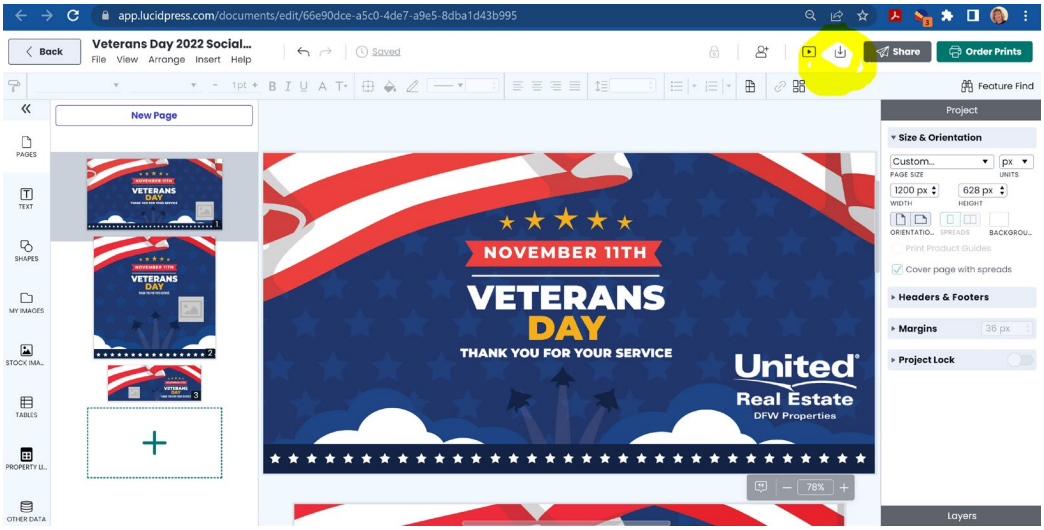
- A second window will pop up, then click on the "Use Template"



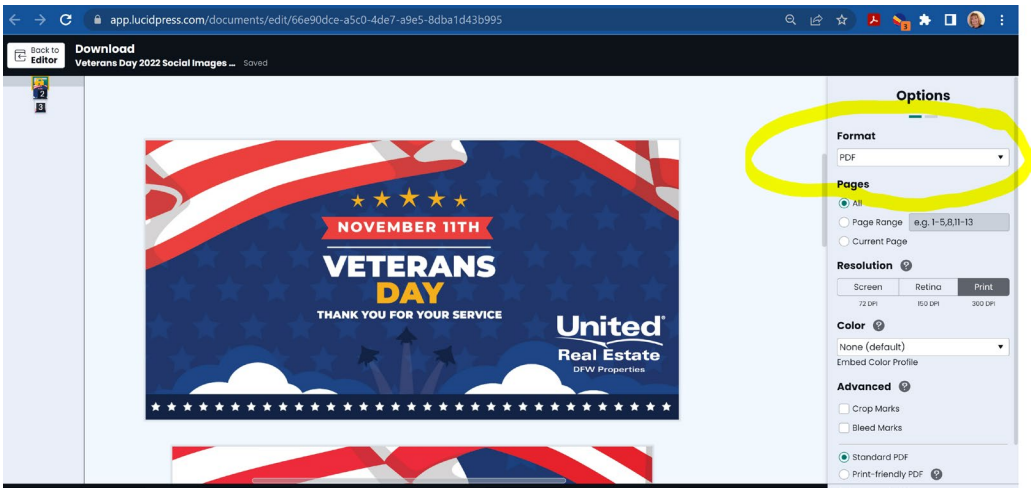
- Click on the “Create Document”

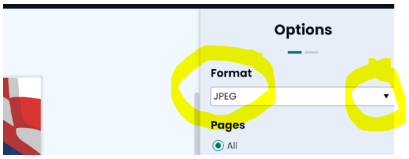


- In a separate tab, the 3 social media options will appear. Click on the download button in the upper right hand corner to the left of the order prints & share buttons.

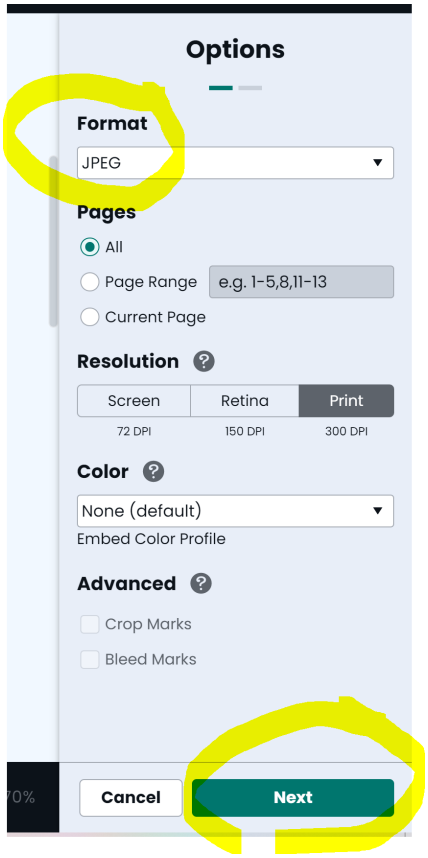


- Change the format to JPEG (social media doesn’t allow pdf formats)

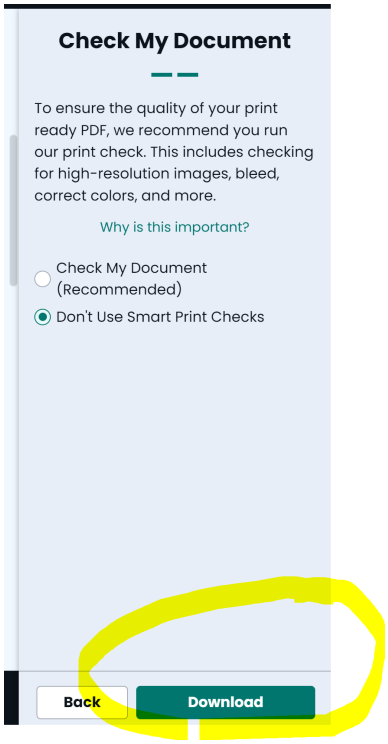




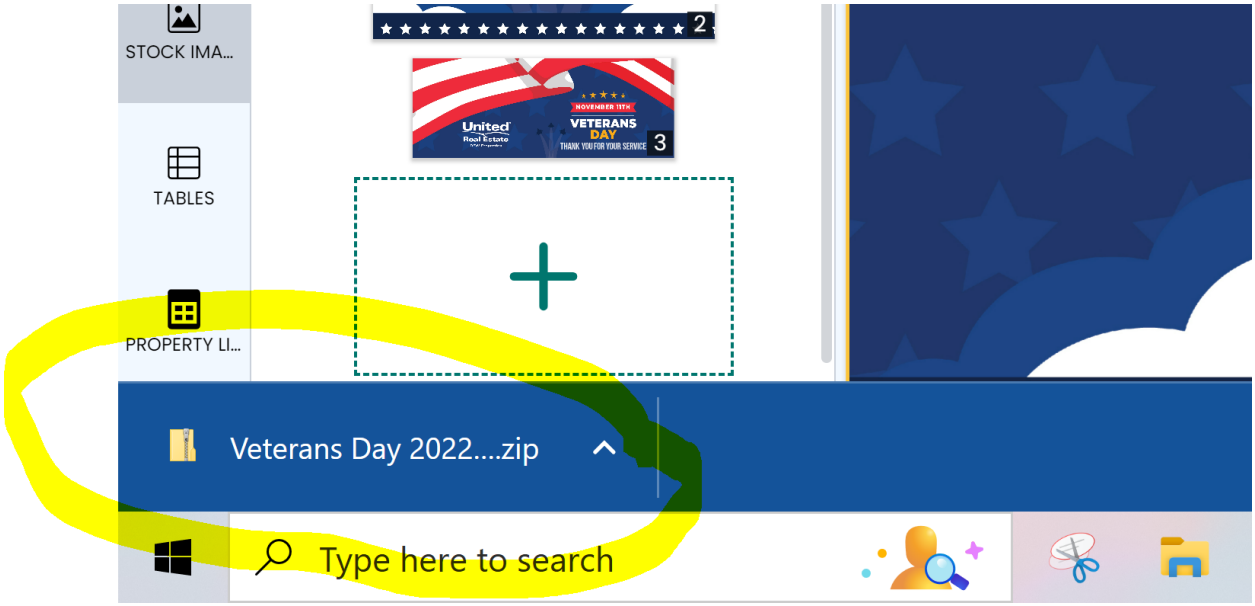
- Then click “Next” in the lower right hand corner



- And then click “Download”



- Now find your “Downloads” and open the ZipDrive – I can help those of you on a PC. You Mac/Apple user seek out the other Mac/Apple users in the office. (You know who you are)



- Move forward with opening the Zip Drive and there are your files.

If I lost you, just reach out and let me help or take the class taught by the Home Office. Or you can wait for me to post.
